

With our software solution, ALLEVO, we comprehensively support the planning and controlling processes in SAP ERP, which often affect financial accounting, sales and material management. Over 250 companies across a wide range of industries and sizes, with both national and global operations use Allevo to optimize their business processes.

For the further development of our software solutions we are looking for a

.NET, C# Developer (m/f/d)

You will be responsible for the following tasks:

- Maintenance and ongoing development of existing Allevo functions (Excel AddIn and Web application)
- Conception, design and coding of new standard functions (e.g. planning/reporting via Excel or creation of professional graphics)
- Development of customer-specific Allevo extensions in cooperation with our consultants
- Collaboration in quality assurance, testing and documentation
- Support of our customers with the introduction of new developments (pilot phases) in cooperation with consulting and support teams.

Ideally, you have the following qualifications:

- University degree (computer science, information technology, business informatics) or a comparable education / training background
- Practical experience in the development of program functions within Microsoft .NET Framework, C#, WPF, ASP MVC, VSTO, COM
- Knowledge of other programming techniques / languages is advantageous (e.g. OOD, Unit Tests, Excel VBA, JavaScript, JQuery, HTML5 or SAP UI5/Fiori)
- Passion for elegant and clean code
- Experience with SAP ERP would be ideal, but is not a prerequisite.
- Interest in business concepts as a basis for independent problem solving
- Good communication skills for working in a team
- Good German and English language skills

We offer:

- A comfortable working atmosphere with short decision-making paths
- Individual orientation in the exciting SAP topic areas in the Allevo environment
- Personal development opportunities and room for creativity
- Possibilities for additional responsibility within our flat hierarchy
- Attractive opportunities for professional development

Are you looking for a new challenge? We look forward to meeting you!
Please send your application to Susann Wicklein (recruiting@kern.ag).
